

Speaker Profile

# Stephanie BySouth

**Stephanie is an expert in helping leaders guide transformation and performance improvement through business agility, relational leadership and product innovation.**

With a deep career in leading global digital delivery, .coms and blue-chip business transformation. Stephanie generously shares authentic experience, a passion for bringing humanity back to the workplace and simplicity back to ways of doing business.

As a veteran conference speaker, mentor and author in the Agile Conference community Stephanies' experience as a digital leader and expert business agility coach provides a wealth of case studies, personal stories and professional success for the audience to enjoy.

Powerful, confronting and humorous, Stephanies' presentation will shift your perception of what leadership and business innovation truly are and what is their actual role in driving bottom line performance. Evidence based and highly compelling, Stephanies' programmes will challenge you to look at the world around you differently and recognise the patterns, problems and opportunities in your business model, culture and product lifecycles.

Stephanie has been authoring her insights on her blog; [www.stephaniebysouth.com](http://www.stephaniebysouth.com);

<https://medium.com/business-agility-insights>.

As a veteran speaker in the Agile Conference Community Stephanie has been exemplifying thought leadership in the world of innovative business.
